Weidmüller

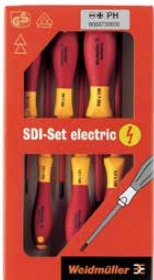

FrontCom Micro IP65 Panel Interfaces

Special Price from \$19.00

Rated IP65 when closed, Weidmüller's FrontCom Micro is your best choice when you need a connection at the control panel, electrical cabinet or distribution board. All housings are made from robust black PA material; UL 94V-0 rated. All rated 750 plugging cycles according to IEC 60603-7.

- 1018790000: RJ45 Coupler rated Cat. 6A
- 1018840000: USB-A to USB-A Coupler
- 1427960000: USB 3.0-A to USB 3.0-A Coupler
- 1222550000: USB-A to USB-B Coupler (printer style)

Catalog #	Description	Regular Price	Special Price
1018840000	IE-FCM-USB-A	\$25.75 ea.	\$19.00 ea.
1222550000	IE-FCM-USB-AB	\$31.62 ea.	\$19.00 ea.
1427960000	IE-FCM-USB-3.0-A	\$31.42 ea.	\$25.00 ea.
1018790000	IE-FCM-RJ45-C	\$29.05 ea.	\$25.00 ea.

Insulated Screwdriver Sets

Special Price from \$36.00

Insulated screwdriver sets for safe working on live parts up to 1000Vac and 1500Vdc.

Four insulated screwdriver sets to choose from:

- 9009730000 with 4 flat blades and 2 Philips
- 9205550000 with 6 flat blades (2.0, 2.5, 3.0, 3.5, 4.0 and 5.5mm)
- 1128540000 with 4 flat blades and 2 Pozidrive
- Special SlimLine shaft version 1274750000 with 4 flat blades and 2 Philips

Catalog #	Description	Regular Price	Special Price
9009730000	SDIS 2.5-5.5/PH1/2 6pcs	\$83.06 ea.	\$42.00 ea.
9205550000	SDIS 2.0-5.5	\$53.24 ea.	\$36.00 ea.
1128540000	SDIS 2.5-5.5/PZ/1/2	\$83.06 ea.	\$45.00 ea.
1274750000	SDIS SL 3.5-6.5/PH1/2	\$124.35 ea.	\$75.00 ea.

Q-Specials

RIDERSERIES Relays

Special Price from \$9.00

A single kit part number - includes base, relay, LED indicator and lever all in one

- 24Vdc and 115Vac RCI Series with 2 change over contacts in 15.5mm width
- 24Vdc and 115Vac RCM Series with 4 change over contacts in 28.0mm width
- Screw clamp versions

Consult factory for other versions available - various input voltages, various contact configurations (1CO, 2CO, 3CO & 4CO), screw clamp and push-in connections

Catalog #	Description	Regular Price	Special Price
8881580000	RCIKIT 24VDC 1CO LD/PB (with test button)	\$12.77 ea.	\$9.00 ea.
8897060000	RCIKIT 115VAC 1CO LD/PB (with test button)	\$19.57 ea.	\$13.00 ea.
8881610000	RCIKIT 24VDC 2CO LD/PB (with test button)	\$12.98 ea.	\$9.00 ea.
8897080000	RCIKIT 115VAC 2CO LD/PB (with test button)	\$19.36 ea.	\$13.00 ea.
8921030000	RCMKIT-I 24VDC 4CO LD (with test button)	\$26.27 ea.	\$20.00 ea.
8921050000	RCMKIT-I 115VAC 4CO LD (with test button)	\$26.57 ea.	\$20.00 ea.

Ethernet and USB Rail Mountable Couplers

Special Price from \$21.00

- 8946920000: RJ45, 8 wire, CAT 6a coupler for TS35 mounting, straight
- 8946960000: USB type AF to type AF coupler for TS35 mounting, straight
- 1438180000: USB type AF to type BF (printer) coupler for TS35 mounting, straight

Catalog #	Description	Regular Price	Special Price
8946920000	IE-TO-RJ45-C	\$42.23 ea.	\$25.00 ea.
8946960000	IE-TO-USB	\$32.86 ea.	\$25.00 ea.
1438180000	IE-TO-USB-AB	\$26.99 ea.	\$21.00 ea.

connectPower PROeco Power Supplies

Special Price from \$60.00

Weidmuller's PROeco power supplies are an extremely robust power supply with outstanding performance features.

- Smaller dimensions: up to 50% space savings on the rail
- Less than 50mV ripple, +/- 1% voltage regulation, up to 93% efficiency, better than 20ms hold-up time, low inrush current, parallel operation possible, economical plastic foot
- Operating temperature range of -25°C to +70°C (derating starts at 55°C)
- Normally Open status relay output; tri-color LED (DC OK; I > 90%In; Fault)
- International approvals: TÜV, cULus, EAC, RCM

Catalog #	Description	Regular Price	Special Price
1469470000	PRO ECO 72W 24V 3A	\$104.85 ea.	\$60.00 ea.
1469480000	PRO ECO 120W 24V 5A	\$136.99 ea.	\$72.00 ea.
1469490000	PRO ECO 240W 24V 10A	\$211.46 ea.	\$120.00 ea.
1469510000	PRO ECO 480W 24V 20A	\$339.28 ea.	\$200.00 ea.
1469520000	PRO ECO 960W 24V 40A	\$606.88 ea.	\$425.00 ea.

Analog Signal Converter ACT20P

Special Price of \$295.00

- Configurable universal input (+/-20mV to +/-300V, +/-0.1mA to +/-100mA)
- Configurable output (voltage/current)
- Active or passive output for DCS analog inputs
- Universal voltage supply 24 to 230Vac/dc
- 3-way isolation up to 4kV
- Convenient configuration on the device with DIP switches or by means of push buttons and a clear-text display, without the need of a reference source/calibrator
- Worldwide approvals for general purpose and hazardous locations

Catalog #	Description	Regular Price	Special Price
1481970000	ACT20P-PRO DCDC II-S	\$412.00 ea.	\$295.00 ea.

The PicoPak Family

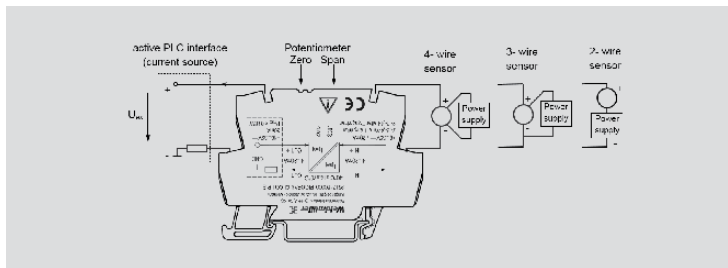

PicoPak I to I / 4-20mA Loop Isolator is a current loop isolator in an terminal block! It provides up to 3.5kV of isolation with fast response time, mounts on 32mm and 35mm DIN-rails and has two wire input and output.

Hazardous area approved and CE marked.

Parameter	PicoPak H	PicoPak-CI-CO-LP-S PicoPak-CI-CO-LP-P
Housing width	8mm + cover plate	6mm
Power supply	loop powered	loop powered
Accuracy	0.2% of span 0.02% TC	0.1% of span + 0.01% TC
Input	4 ... 20mA	4 ... 20mA
Output (analog)	4 ... 20mA (500R)	4 ... 20mA (600R)
Isolation	2kV	3.5kV
Wire connection	Screw clamp	Screw clamp / Push-in
Temperature range	-20°C ... +50°C	-40°C ... +70°C
Approvals	CE, CSA, C1D2	CE, cULus, C1D2, ATEX, IECEx

The family at a glance

Type	Description	Catalog No.
PICOPAK I TO I / DK6 WITH AP	8mm wide + endplate screw clamp	9908800000
PICOPAK-CI-CO-LP-S	6mm wide screw clamp	2517450000
PICOPAK-CI-CO-LP-P	6mm wide Push-In terminals	2501110000

PICOPAK I TO I / DK6 WITH AP

PICOPAK-CI-CO-LP-S

Take advantage of our offer for the THM MultiMark for \$1.00!

Offer valid from August 5, 2019 to December 31, 2019 for customers in North America only.

Weidmuller's THM MultiMark thermal-transfer printer is designed to address the complex identification requirements of equipment, wire and terminals within a control cabinet. The MultiMark is high-speed and ideal for small and medium print volumes.

This user-friendly printer is supported with an extensive line of marking consumables such as terminal tags, adhesive equipment labels, endless heat shrink wire sleeves and wire markers.

For a limited time, get the THM MultiMark printer for \$1. Contact Weidmuller for a demonstration.

INSTA POWER Power Supplies – Compact, Efficient and Reliable

Simple time and cost savings through standardization

The new INSTA POWER high-efficiency single-phase power supplies feature a compact design, with a basic depth of only 60mm that is ideally suited for use in the small cabinets that typically make up today's decentralized control systems, as well as small distribution boards, meter cabinets and electrical.

The single-phase INSTA POWER switched-mode power supplies have a broad power spectrum, compact design and good price-performance ratio. The high efficiency and the extremely low no-load power loss of max. 0.5W ensure minimum energy costs. Nine variants of DIN-rail power supply in INSTA housing.

They operate in a temperature range from -25°C to +70°C and have international approvals, wide-range voltage input and an MTBF of 1,000,000 hours.

Benefit	Advantages	Attribute
Space saving and wiring time saving	Perfectly suitable for flat control panel and distribution panel	Narrow housing with PUSH-IN connectors
Applicable for nearly all applications under industrial and domestic environments, even for outdoor use	Reliable operation in a wide temperature range	Temperature range -25°C ... +70°C
Worldwide approvals	Worldwide use	Wide input voltage range TÜV, cCSAus, C1D2, Class 2 POWER
Energy cost reduction and eco-friendly	Energy saving	High efficiency and low idling power losses (< 0.5W)

Weidmuller Tool Chest

Optimized organization of tools and work materials

Only One
Part Number
Needed

With the process of wiring control cabinets being extremely time-consuming, having quick access to organized tools makes all the difference. The Weidmuller tool chest allows you to organize your tools how you want them. With its foam inserts that are tailored to the drawers and its trisection design, you can create custom tool layouts that are personalized to your needs.

Not sure which tool goes where? Our foam layouts have labels for each tool, so you can quickly pack up your tools. Each tool layout has a specific QR code that leads to our online catalog with technical specs and application videos.

Pushing to the extreme

Tool Chest Features: Optimal load capacities: 40kg (88lbs) per drawer, 400kg (881lbs) housing capacity

Ideal space conditions: Six drawers with 600x447mm (23.6x17.6in) usable internal dimensions (Height: 2x75mm / 2x100mm / 1x150mm / 1x200mm) (Height: 0.08x2.9in/ 0.08x3.9in/ 0.04x5.9in/ 0.04x7.9in)

Maximum utilization: Full extension of drawers and optimal drawer height

Perfect work safety: Central locking and increased safety against unintentional opening while mobile

Flexible adjustment possibilities: Perforated sidewalls and rear wall for the admission of accessories and tool hook

Highest ease of use: Sturdy ergonomic sliding bar made of anodized aluminum

Full mobility: Two smooth rolling fixed and two swivel wheels made of solid rubber

Additional storage and working surface: Non-slip plastic cover with small parts compartment

Additional safety: Edge protection made of ABS plastic as shock absorber
